ABOUT

Passionate and highly motivated Software Engineering student at IIT with a strong foundation in coding, problem-solving and software development. I am looking forward to working with professionals, going more industry experience and training to become my better version of myself each & every day

TECHNICAL SKILLS

- **Language** : Jave, Python, javaScript
 - **Web Development** : HTML,CSS,Reat.js
 - **Backend** : Node.js
 - **Databases** : MySQL
 - **Software Development** :Object-Oriented Programming
 - **Version Control** : Github
 - **Project Management** : clickUp
 - **Tools** : VScode,Figma,intelija
-

PROJECT

Personal Portfolio Website

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, and academic achievements.
- Created user-friendly layouts and responsive web pages for desktop and mobile devices.

Technologies used-HTML,CSS,JavaScript

2026

Highway Bus E -Ticketing System

- Contributed to the development of a highway bus e-ticketing mobile application that allows passengers to search routes, check seat availability, book tickets, make online payments, and receive e-tickets.
- Designed and developed the frontend using Flutter and Dart.
- Created UI/UX designs in Figma for application screens and user flow.
- Designed social media marketing posts to support product promotion and branding.
- Technologies Used: Flutter, Dart, MySQL, Figma

Technologies used-Fultter,Dart,MySQL java

2026

Directed Graph Acyclicity Checker

- Developed a graph-based application to detect cycles in directed graphs using data structures and algorithms.
 - Implemented graph parsing, cycle detection, sink elimination algorithm, and file handling.
 - Applied Big-O analysis to evaluate algorithm performance.
- Technologies used-** java,Data structure & Algorithms2026

Traffic Data Analysis System

- Developed a Python-based traffic data analysis system with a graphical user interface (GUI) to analyze and visualize traffic-related datasets.
 - Implemented file handling features to read and process traffic data from external files efficiently.
- Technologies used-**python2024

EDUCATION

IIT affiliates with University of Westminster2024 - 2028

- 2024- Present
- Second year Undergradute

Mahinda College2020 - 2022

- 2020-2022
- G.C.E Advanced Level
Math stream (2022)

ACHIVEMENT

completed the special program to “Tertiary Education through Career Guidance” conducted in collaboration with Ministry of Education

Achieved English short course certificate in Listening and speech at open university Sri Lanka
